PROFESSIONAL SUMMARY

Final-year Computer Science student at Kingston University with hands-on experience in short-form content creation, Instagram and TikTok campaign management, and analytics. Produced content for brands including Coca-Cola and Kingston University. Skilled in Meta Business Suite, TikTok Studio, and Python-based data analysis. Looking to apply content and lead generation expertise to drive qualified leads across a range of industries.

EDUCATION

Kingston University London
Bachelor of Science in Computer Science (Predicted 2:1)

London, UK
2022 – 2026

- Relevant Coursework: User Experience & Interface Design, Centred Design, Data Structures & Algorithms

EXPERIENCE

Freelance Marketing & Content Creator
Anars Kitchen, Redrock Burgers, Budgens, Coca-Cola, Kingston University

Remote
2024 Jan – Present

- Produced short-form video content and managed social media campaigns across Instagram and TikTok for clients spanning restaurants, retail, higher education, and a global beverage brand.
- Created student-facing content for Kingston University’s Instagram page, gaining direct experience marketing to an international student audience within an educational institution.
- Tracked and optimised campaign performance using Meta Business Suite and TikTok Studio, monitoring reach, engagement, and follower growth to refine posting strategy.
- Managed client briefs, communications, and creative direction across all engagements independently.

Video Editor
London Hustle, K-Wiss, Mrsplaysstuff

Remote
2024 Mar – 2024 Sep

- Crafted trend-focused short-form content including rapid daily uploads, amassing over 500k views across client channels.
- Conducted targeted market research across Reddit, YouTube, and X (Twitter) to identify audience trends and inform content strategy.
- Managed a trending multi-video series driving a rapid acquisition of 3,000 new subscribers, growing qualified, engaged audiences.
- Oversaw daily channel uploads and trained an assistant editor to meet tight production deadlines.

Data Analyst Extern
Beats by Dre (via Extern)

Remote
May 2025 – Aug 2025

- Analysed datasets of 100+ consumers using Python and Excel to extract trends on brand perception and customer satisfaction.
- Designed and presented data-driven visualisations and strategic recommendations to the leadership team via interactive dashboards.

Marketing Advisor
JV Hotel (family business)

Nigeria
2023

- Developed foundational branding and Airbnb service strategies for a boutique hotel.
- Managed customer communications and directed support teams to resolve complaints efficiently.

Web Developer Intern
USP College

Basildon, UK
Sep 2021 – Apr 2022

- Implemented SEO best practices and image compression techniques, significantly improving organic search rankings and site load speeds.
- Rebuilt a local e-commerce site with secure payment API integration, contributing to a 68% increase in sales traffic.
